McAllen-Hidalgo and Anzalduas International Bridges

MEMO

To: Mayor Jim Darling and Bridge Board Members
Roel "Roy" Rodriguez, McAllen City Manager

From: Juan Olaguibel, Director of Operations

xc: Rigo Villarreal, Superintendent of Bridges

Date: January 8, 2016

Re: McAllen-Hidalgo Intl Bridge Capital Improvement Fund

The McAllen-Hidalgo Intl Bridge's Capital Improvement Fund is set up to withhold .25 cents from every vehicle crossing and is intended to be used for bridge improvement projects.

On December 1, 2015, an increase of .25 to vehicular traffic tolls was approved by the McAllen-Hidalgo and Anzalduas International Bridge Boards. Staff was directed to present a detailed plan of future capital improvement projects to determine if the fund merited an additional .25 cents added to it. This would mean 50 cents of every vehicular toll would be allocated for capital improvement projects.

For the past 60 days, staff has been working with the Engineering Department to determine cost estimates for projects at the McAllen-Hidalgo International Bridge. The projects listed are improvements needed at the International Bridge in order to improve the experience travelers have when they come into the United States. These projects are attached. The estimates for the total cost of these Capital Projects is approximately $4,670,325. At the current rate, approximately $56k is deposited monthly into the McAllen-Hidalgo Capital Improvement fund. At this rate, it would take approximately 7 years to save the money needed to fund these projects at today's construction market price. We are also looking at funding a bus terminal for Customs and Border Protection in order for the port to have a new

designated bus terminal. This bus terminal has an estimated cost between $4,670,325 low end and $5,264,730 high end. At the current pace, this project would take us an additional 7 to 8 years to save The Port of Entry currently has challenges processing pedestrians waiting to come into the U.S. as well as bus travelers.

In order to obtain the necessary funds to make this port of entry safer and better for all travelers using it, we are requesting an additional 25 cents to the existing monthly contribution of 25 cents, making it a total of 50 cents, to be added from the vehicular tolls into the McAllen-Hidalgo International Capital Improvement Fund.

The McAllen-Hidalgo Capital Improvement Fund has funded:

- The Re-pavement Project, paving the road going southbound into Mexico and adding a pedestrian side walk at cost of $956k where the bridge paid 20% of this cost ($191k) and TXDOT 80% ($765k).
- The Canopy Project, this project provided protection to pedestrians, up to the border with Mexico, waiting to be processed by CBP at a cost of $716k and funded 100% by CIP funds. Celso Construction
- The Northbound Canopy Project smaller canopy project done by Holchemont, LTD $54k
- The Landscaping project, where landscaping and irrigation was added to beautify the northbound area. This area is used by visitors waiting for buses. The cost was $22k and funded 100% by CIP funds.
- Northbound Bridge Fence Project. $49k and funded by CIP money, we enforced the northbound bridge by adding a higher fence.
- The Purchase of a generator for Hidalgo Port of Entry facility at a cost of $23k.
- $35k to add a bus island toll lane to provide pedestrians coming into the U.S. options for them to use any bus vehicle they choose. This "Bus Island" generates approximately $8,892 in revenues per month.
- Security Fence Project. Added southbound fence $20k
- Facility Upgrade Improvements Customs and Border Protection **(To be Completed FY 2016)** Approximate Cost $2,939,580.00

Projects Budgeted for this Fiscal Year:

- Construction of a new northbound pedestrian restroom and upgrading the current southbound restrooms. Budgeted $175k
- Upgrading the Southbound Canopy and Repainting the entire fence. Budgeted $200k
- Re-tiling the exterior and interior of the Hidalgo Port of Entry. Budgeted $175k
- Office Building Upgrades (The Old VTC Building). Budgeted $90k
- Pedestrian walkway improvements. Budgeted $50k

Please See Attached Breakdown of Projects Budgeted, Proposed Projects and Possible N.B. Bus Terminal.

	Design	Construction	Total Cost

CITY OF McAllen

ENGINEERING DEPARTMENT

MEMORANDUM

To: Roel "Roy" Rodriguez, P.E., City Manager

From: Yvette Barrera, P.E., C.F.M., City Engineer

Date: 22 December 2015

Subject: Consideration of Change Order #5 for SpawGlass for McAllen- Hidalgo International Toll Bridge Port Facility Improvements Project E02-15-C11-600 PO60253

GOAL

Consideration and approval of Change Order #5 for SpawGlass for Port Facility Improvements Project.

EXPLANATION

This proposed change order consists of Five (4) separate items which include both debits and credits to the project.

Item No 21

PCI #28 R1 – The design for the counters at Building 'A' & 'B' did not comply with Texas Accessibility Standards (TAS) 902.3. Modify and provide new counter tops to comply with (TAS) standard 902.3 at building 'a' passport control area 211, building 'a' in-pass enrollment & building 'b' work area 309. To include new glass to comply with cutting & readjust electrical wiring at Building 'A' Passport Control Area 211, Building 'A' In-Pass Enrollment & Building 'B' Work Area 309. CBP will have to make the adjustment of IT cables & phone lines. SpawGlass pricing is labor and materials. $18,624.00 (City of McAllen)

Item No. 22

PCI #30 – Provide new metal handrails at Building 'B' by head house due to 6" height elevation difference. Will require installation of 74 LF Galvanized 1 1/2" Std. Pipe Handrails with Toe Guard at Bottom to comply with (TAS) standard. Owner requested Pipe Handrails due to new handicap ramps added in this area. SpawGlass pricing is labor and materials. ($6,810.00) (City of McAllen)

Item No. 23

PCI #002 R2 – Installation of the new Phuzion Lights on Primary & Secondary Canopies. There are a total 87 Phuzion Lights 18L & 18 Phuzion Lights 24L for a total count of 105 fixtures. This light fixtures were requested by CBP. SpawGlass pricing is labor and materials. $139,269.00 (General Services Administration)

RESPONSIBILITY FOR COST ALLOCATION SHALL BE DISTRIBUTED AS FOLLOWS:

Negotiated Contract Amount $2,939,580.00 160 Working Days *

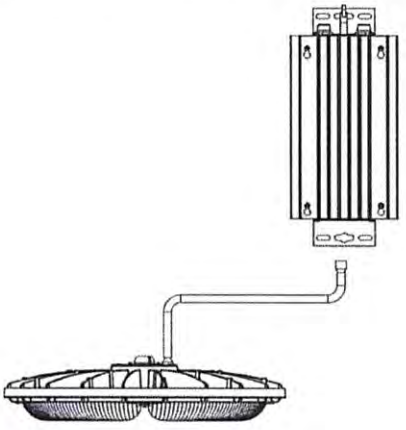
LED High Bay



DesignLights Consortium® (DLC) qualified product. Not all versions of this product may be DLC qualified. Please check the DLC Qualified Products List at www.designlights.org to confirm which versions are qualified.

.92amps @ 277v

Description

The Phuzion LED luminaire takes high-bay lighting to new levels of lumen output and temperature tolerance. By marrying the latest in LED technology with the legendary illuminating dynamics of Holophane's prismatic glass, the Phuzion high bay brings to the industrial environment LED lighting of unparalleled performance and reliability.

Optics

- Prismatic borosilicate glass maintains highest levels of luminosity over time.
- Glass doesn't fade, discolor or otherwise degrade in harsh environments.
- Three distributions (narrow, medium and wide) available to maximize versatility, with frosted lens option .
- Highly engineered LED system ensures superior uniformity and maximizes spacing.
- IP65 rated optics.

Mechanical

- Robust cast aluminum housing with low copper content (0.6% CU content) withstands hot and dirty environments.
- Pendant optical housing mount standard with 10, 30 and 50 ft flex cable.
- Achieves up to 149°F (65°C) ambient rating.

Electrical

- 0-10V dimming driver is standard, knockouts on electrical housing for entry for low-voltage wiring. 2kV/1kA level of surge protection provided by driver.
- 10kA/10kV surge protection is standard.
- An added 20kA in-line surge protection is also an option on 120-277.
- CRI > 70 (nominal) is standard.
- 3000K, 4000K or 5000K CCT available.
- Fault-tolerant LED light engine continues to provide light even in the failure of one LED.
- Aluminum core printed circuit board.
- For AS (120-277V), dimming source current = 300 micro amps (18L, 24L, 27L) and 150 micro amps (12L).
- For AH (347/480V), dimming source current = 2000 micro amps (18L, 24L, 27L) and 1000 micro amps (12L).

Listings

- CSA Certified for use in damp locations, 65°C ambient environments.
- DesignLights Consortium® (DLC) qualified product. Not all versions of this product may be DLC qualified. Please check the DLC Qualified Products List at www.designlights.org to confirm which versions are qualified.

Warranty

5-year limited warranty. Complete warranty terms located at: www.acuitybrands.com/CustomerResources/Terms_and_Conditions.aspx

Actual performance may differ as a result of end-user environment and application.

All values are design or typical values, measured under laboratory conditions at 25 °C.

NOTE: Specifications subject to change without notice.

Typical Applications

- Heavy industrial
- Light manufacturing
- Warehousing
- Large indoor

Dimensions: *Inches (millimeters) unless otherwise noted.*

Diameter: 21.22 (538.99)
Height: 19.02-23.46 (483.11-595.88)
Weight: 33-38 lbs. (15.0-17.2 kg)

Notes

1 60°C max. ambient.
2 Flex conduit will be attached to the optical assembly.
3 AS voltage not available; 120V 50°C rated; 208, 240 and 277V 60°C rated only.
4 For 120V, 240V, 277V and 347V units; factory installed.
5 For 208V, 240V and 480V units; factory installed.
6 X = Length of cord/chain in feet; 3-6 feet is standard.
7 Attached to remote driver housing.
8 Attached to optical assembly.
