Integrated Services

Solar Power Solutions & Service

- Design, manufacture, and maintain off-grid solar lighting and custom solar energy systems, delivering sustainable, maintenance-ready solutions for public, commercial, and remote environments.

Emergency Response & Procurement (Hard-sided, Soft-sided, Modular, Wrap-around services)

- Rapid deployment of modular infrastructure, critical facilities, and logistics support—providing engineering, procurement, and construction services for crisis, disaster relief, and high-priority government projects.

AI Powered Weapon Detection & Screening

- Deploy advanced, non-invasive screening systems using artificial intelligence to detect concealed weapons in high-traffic environments, enhancing security without slowing entry flow.

Network Infrastructure & Telecommunications Support

- Provide end-to-end IT modernization, managed network services, cybersecurity, and telecommunications solutions to optimize connectivity, resilience, and operational performance.

About Me

Jaime Salazar is a former Senior Executive in the federal government with over 35 years of distinguished service across the U.S. Army, the Department of Homeland Security (DHS), and U.S. Customs and Border Protection (CBP). Throughout his career, he has been repeatedly selected to establish and lead complex, mission-critical initiatives supporting U.S. national security objectives, leveraging extensive interagency and global partnerships. He has led major national security and intelligence programs in the U.S. and abroad, specializing in risk, threat management, and critical infrastructure protection. He has also advanced technology-driven school safety and critical infrastructure initiatives, earning recognition from the Texas School Safety Center.
