2025 McAllen National Incident-Based Reporting System (NIBRS) Crime Estimate Released

The City of McAllen participates in the US Department of Justice (DOJ) FBI Uniform Crime Reporting (UCR) System, a nationwide statistical data reporting effort.

The DOJ FBI Summary Reporting System (SRS), commonly known as the Uniform Crime Reporting (UCR), transitioned to the National Incident-Based Reporting System (NIBRS) beginning January 1, 2021.

Additionally, the Texas Legislature passed legislation that requires this reporting change.

HB 11, Texas 84th Regular Session, effective 09/01/2015, in part, provides that:

Sec. 411.054. INCIDENT-BASED CRIME STATISTICS REPORTING GOAL.

(a) The department shall establish a goal that, not later than September 1, 2019, all local law enforcement agencies: (1) will have implemented an incident-based reporting system that meets the reporting requirements of the National Incident-Based Reporting System of the Uniform Crime Reporting Program of the Federal Bureau of Investigation; and (2) will use the system described by Subdivision (1) to submit to the department information and statistics concerning criminal offenses committed in the jurisdiction of the local law enforcement agency.

Reporting under the traditional UCR format reflects occurrences of eight (8) crime categories (including Arson) called Part 1 Crimes.

Reporting under the NIBRS format reflects 24 offense categories of 52 reportable Group A offenses and 10 Group B offenses.

The City of McAllen’s Uniform Crime Reporting (UCR) transitioned to the National Incident-Based Reporting System (NIBRS) since January 1, 2021.

We anticipate releasing our 2025 McAllen National Incident-Based Reporting System (NIBRS) Crime report on Friday, January 16, 2026. Generally, the report will reflect the following NIBRS offense information:

Table 1: Crime Volume Analysis (collective sum of reported crime):

Crimes Against Persons increased:	.2%
Crimes Against Property decreased:	-18.7%
Crimes Against Society decreased:	-6.6%
NIBRS Total decreased:	-10.4%

Table 2: Crime Rate Analysis (factors changes in population):
